DETAILED ACTION

Priority

This application is a divisional of 10/255,494 09/26/2002 which is a CIP of 09/970,140 10/03/2001, and which claims benefit for domestic priority under 35 U.S.C. § 119(e) [to a provisional application 60/400,807 08/01/2002], is acknowledged.

Status of Claims

Claims 1-19 are pending in the application.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 05/17/04, which has been entered in the file.

Examiner's amendment

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael S. Greenfield on January 3, 2005.

The application has been amended as follows:

- a. In claim 1, line14, page 42, please delete "or metabolically cleavable derivative thereof,".
- b. In claims 13-19, please delete "or metabolically cleavable derivative thereof," in all occurrences.

Reasons for allowance

The following is an Examiner's statement of reasons for allowance:

Bertha et al (1998) teach the synthesis of some substituted pyrrolidinone derivatives when treated with Lewis acids in non-aromatic solvents. The instant compounds differ from the prior art by having a pyrrolidinone core structure, which is further substituted by different variables such as R^1 , R^2 , R^3 , R^4 , G, V, Y and Z, (attached directly or indirectly to the core ring) that may have therapeutic utility. The prior art compound neither teaches nor renders obvious the instant claimed invention and there is no suggestion or motivation to modify the compound of other prior art to obtain the instant compounds. Therefore the instant claims are allowable over the prior art of record.
